Anohita Mukherjee

BTech Information Technology | SAP Trainee at Infocus
Technologies Pvt Ltd.
Howrah, West Bengal, India

Summary

Hi, I'm Anohita — a passionate and curious 4th year B.Tech student specializing in Information Technology with a GPA of 9. I love combining enterprise tech like SAPUI5 with modern full-stack tools like Node.js, React, and MySQL to build meaningful, real-world applications.

Currently interning as a SAP FIORI Developer at Infocus Technologies, I've gained hands-on experience with SAP SD, ABAP, HCM, and Fiori modules. I've also dabbled in Data Science and Machine Learning, building projects like SMS Spam Classifiers, Text Summarisers and Fake News Detectors.

Key Projects:

Secure Online Exam System (SAPUI5 + Node.js + MySQL)

Employee Dashboard with SAPUI5, Power BI & HANA Cloud

Beauty E-Commerce Platform (Spring Boot + React)

Text Summarizer with Transformers (T5/BERT)

I believe in modular code, visual analytics, and intelligent solutions that solve problems. I thrive in collaborative environments and love working on tech that makes an impact.

Tech Stack: Java | Python | JavaScript | Node.js | SAPUI5 | SQL |
Power BI | React | Spring Boot | Git | NLP

Open to internships, projects, and collaborations in SAP, Web Development, and Machine Learning.

Let's connect and build something amazing together!

Experience

Infocus Technologies Pvt Ltd

9 months

SAP Trainee

September 2025 - Present (5 months)

Kolkata, West Bengal, India

As an SAP Fiori Developer working on live enterprise applications, I have gained hands-on experience supporting production-grade systems used in real business environments. This role has given me direct exposure to end-to-end application lifecycles, including development, incident analysis, testing, deployment, and post-deployment support.

I have worked extensively with SAP UI5 and SAP Fiori to design and enhance applications such as enterprise dashboards and mass communication tools, ensuring reliability, performance, and usability for end users. Being part of a live support project, I regularly analyzed service requests and production issues, identified root causes, and collaborated with functional and technical teams to deliver timely and stable solutions.

Through this experience, I have developed a strong understanding of enterprise workflows, coding standards, and support protocols, while learning how to build applications that can be trusted in high-impact, real-world scenarios. This role has strengthened my ability to take ownership, adapt quickly, and contribute meaningfully to systems where quality and accountability matter.

SAP Fiori intern

May 2025 - September 2025 (5 months)

Kolkata, West Bengal, India

-Hands on SAPUI5 application development.

-Integrating SAPUI5 applications with Power BI applications for analytics.

The Coders Club

Board Member

April 2024 - Present (1 year 10 months)

West Bengal, India

Infocus Technologies Pvt Ltd

SAP Shadowing Intern

June 2024 - July 2024 (2 months)

West Bengal, India

I shadowed various working professionals, gaining a deep insight into the various SAP modules. I got the chance to sharpen my communication skills and build a strong business understanding and how various departments cooperate and work.

Oasis Infobyte

Data Science Intern

October 2023 - November 2023 (2 months)

West Bengal, India

Infocus Technologies Pvt Ltd

SAP Trainee

July 2023 - July 2023 (1 month)

This was my very first experience as a trainee. The training was a simple introduction to the SAP ERP software and how it is used in the functioning of the company.

It has made me well aware about the working environment and made me learn the importance of effective communication.
