Anohita Mukherjee

4th Year BTech Information Technology Student (8th semester)
7044487118 • West Bengal, India • anohitamukherjee@gmail.com

Profile Summary

Results-driven SAP Full Stack Developer with a strong academic record (GPA: 9.0/10) and expertise in building scalable, data-driven applications. Proficient in Full Stack Development using Node.js, React, and SAP UI5, with hands-on experience in SAP BTP and REST API integration. Demonstrated ability to manage the entire software development lifecycle, from database management in SQL/NoSQL to front-end UI design and deployment.

Educations

BTech. Information Technology
2022- 2026
MCKV Institute of Engineering|Howrah,West Bengal, India

GPA: 9.0

- Completed rigorous coursework in Object-Oriented Programming, Database Management Systems, SQL, Computer Networks, and Software Engineering
- Actively contributed to SAP-focused academic projects and industry internships

Experience

SAP Full stack developer Trainee (Fiori)   *Sept 2025 – Present*
Infocus Technologies Pvt. Ltd. | Minto Park, Kolkata

- **Full-Stack Development:** Architecting and maintaining SAP UI5 applications integrated with enterprise-level backends to support Birla Group's production environment.
- **Application Development:** Engineered a Mass Email Application using **SAP UI5** and modular logic to streamline enterprise-wide communication workflows.
- **Support & Optimization:** Analyzing root causes for service requests and implementing technical fixes to ensure 100% stability in business operations.
- **Collaboration:** Partnering with cross-functional technical teams to follow enterprise coding standards and optimize application performance.

SAP Fiori Developer Intern   *June 2025 – Sept 2025*
Infocus Technologies Pvt. Ltd. | Minto Park, Kolkata

- **Quality Assurance:** Conducted rigorous testing and debugging of UI5 code to identify and resolve glitches prior to deployment.
- **Database Integrity:** Maintained database health through regular troubleshooting and backups to prevent data loss.
- **Standards Compliance:** Collaborated with senior developers to establish and uphold standardized coding conventions for better maintainability.

Data Science Intern   *Oct 2023 – Nov 2023*
Oasis Infobyte | Remote

- **Predictive Modeling:** Developed and deployed machine learning models for car price prediction and email spam detection using Python.
- **Data Analysis:** Applied advanced data preprocessing and visual analysis to improve model accuracy and performance.

SAP Shadowing Intern   *June 2024 – July 2024 & June 2023 – July 2023*
Infocus Technologies Pvt. Ltd. | Salt Lake, Kolkata

- **Workflow Analysis:** Studied ABAP, SD, and HCM modules to understand full-stack enterprise resource planning workflows.
- **Stakeholder Management:** Delivered technical presentations to non-technical stakeholders, reducing inter-departmental confusion by 95%.

Projects

Mail Admin Dashboard
SAP UI5

• Designed and developed an **admin dashboard** to manage and monitor enterprise email communication workflows.• Implemented features for configuring recipients, triggering mass email actions, and tracking execution status.• Built modular UI components using SAP UI5 to ensure maintainability and scalability.• Supported administrative operations in a live enterprise environment.

Dealer Portal Application
SAP UI5

• Developed a **dealer-facing web portal** to streamline access to business data and operational functions

.• Implemented role-based UI components and structured navigation for improved usability

.• Integrated frontend components with backend services to enable dynamic data interaction.

• Focused on clean UI design and enterprise coding standards.

Secure Online Examination System
SAP UI5, Node.js, MySQL

• Built a full-stack online examination platform with **role-based authentication** for admin and users.

• Implemented timed exams, secure access control, and automated email notifications.

• Integrated SAP UI5 frontend with a Node.js backend using REST APIs and MySQL for data persistence.

Technical Expertise

- **Programming Languages: JavaScript (ES6+), Java, Python, SQL, C, HTML5, CSS3**
- **Frameworks & Libraries:** Node.js, Express.js, React (MERN Stack), SAP UI5
- **Cloud & Platforms:** SAP BTP (Business Technology Platform), SAP S/4HANA Cloud, SAP Build Apps
- **Databases:** MySQL, PostgreSQL, MongoDB, SAP HANA
- **Tools:** Git, REST APIs, OData V4, Power BI, Tableau, Jupyter Notebook
- **Core Competencies:** Full-Stack Web Development, Object-Oriented Programming (OOP), Data Visualization, Applied Machine Learning

Certifications

• Fundamental AI Concepts – Microsoft
• Foundations: Data, Data Everywhere – Coursera
• PwC Switzerland Job Simulation – Forage
• Java Programming: A Comprehensive Bootcamp – Infosys Springboar
